Modules

1. Admin Module
2. PIM - Personal Information Module
3. Leave Module
4. Time Module
5. Reports Module
6. Biometric Data Module
7. Payroll Module
8. News Module

Admin Module

The Admin Module provides you with full control of all settings that affect the action of your CIT HRM implementation. Through the Admin Module, you can:

- Define the Company Hierarchy, Projects, Customers, Qualifications etc.
- Add other administrators and set access levels for each user.
- Data importing and exporting.
- Enable/Disable Module display.

The Admin Module is the backbone of the system and setting it up accurately is important for smooth operation.

PIM - Personal Information Module

This module maintains all relevant employee related information. All information about an employee can be entered here. Information captured in this module is utilized by all other modules, thus eliminating data redundancy. The PIM Module will be available to the admin with full control and supervisors with restricted access showing his subordinates.

Leave Module

The Leave Module automates the HR administrative tasks of recording leave and controlling these against leave policies defined in the HR system. The module provides flexibility in allowing you to define various types of Leave, including Annual Leave, Sick Leave, Travel leave etc. The Leave Module can send notifications to their Managers and allows you to record, track leave and view leave history. The web-enabled and self-service concepts significantly streamline all leave related procedures, eliminate paperwork, and saves costs

Time Module

Business-critical operations require reliable tracking and control to maximize profits and reduce operational costs. A time management tool is one of the vital employee work time management features that make the entire difference between successful HR-Management and a weak one. The Time module automates the time tracking process. While allowing the employee to define and submit their time sheets the Managers can approve/reject or even modify them. The employee will enter the punch in/out time hence allowing attendance monitoring. The Time module can track time spent on specific projects while project managers can define projects.

Report Module

Easy to use standalone reports can be generated to meet your needs. Any module reports can be downloaded by filtering the contents.

Biometric Module

This module is used to add daily Punched IN/OUT details of employees. Admin only have access to this Module and can import Punched IN/OUT records as Excel file.

Payroll Module

The Payroll module manages the processing of employee compensation and the generation of various analyses and documents. Admin can upload Payslips of all employees and employees can download their own Payslips.

News Module

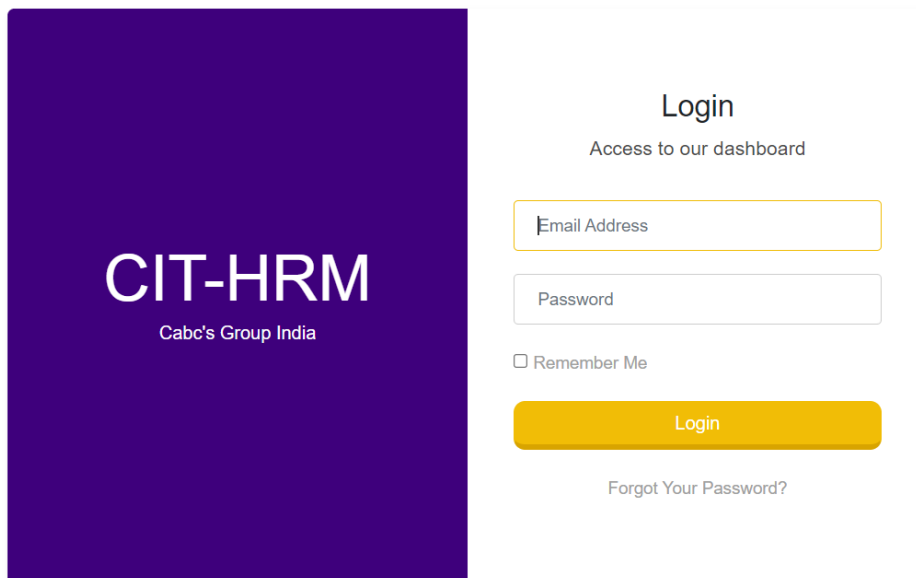

This Module have different news or events that can organized in Organization. Such details can be added in News Module and same will be shown on Dashboard of all the employees.

Forgot Password

The screenshot shows the CIT-HRM Login page. On the left, a purple banner displays 'CIT-HRM' and 'Cabc's Group India'. On the right, the login form includes fields for 'Email Address' and 'Password', a 'Remember Me' checkbox, and a yellow 'Login' button. Below the button is a link that says 'Forgot Your Password?'.

If Employee forgot his password, then he can request for reset password by clocking on link “Forgot Your Password?” on Login page.

Dashboard

Click on “Dashboard”, It shows all Modules link in Nav Bar. Displays employees count, Companies count, Leaves Count of Logged in User. It also displays Total employees based on Job title in Pie chart and Pending leave requests in Bar chart. Dashboard also shows some fields like News Section, Team Leads Section, Recent Activities Section and Your Upcoming Leaves Section. All data displayed in this section is dynamic and displayed for time period or up to some status change. It also shows logged in user's Leave data at left side.

Admin Module

The Admin Module, the main point of control for the whole system. All administrative tasks such as configuring job titles, creating user accounts and many other system management tasks are performed on the Admin Module.

Organization

General Information

Click on Organization → “General Information” and click on edit to add the company details including company name, address, phone numbers, and Registration number.

The screenshot displays the CIT-HRM Admin Module interface. The top navigation bar includes a search bar and a user profile icon. The main navigation menu lists various modules: Dashboard, Admin, PIM, Leave, Time, My Info, Reports, Biometric Data, Settings, and News. The left sidebar shows the 'Home / Company' path, with 'Company' selected. The main content area is titled 'CABCS Group India' and contains three sections: 'Details', 'Address', and 'Contact'. The 'Details' section includes fields for 'Incorporation Date' (2021-07-28), 'Register Number' (123456789), and 'Tax ID' (987654321). The 'Address' section includes fields for 'Address' (Test, Bangalore, Karnataka, India - 123213) and a 'Edit Company' button. The 'Contact' section includes fields for 'Phone Number' (9187548520), 'Website' (https://www.cabcsgroup-india.com), and 'Email' (cithrm@yopmail.com), with an 'Add' button. The bottom section shows a list of locations, with 'CABCS Group India' (Head Office) selected.

Job

Job Title

Click on Job → “Job” Titles to add the new titles for the employee.

The screenshot shows the CIT-HRM application interface. At the top, there is a navigation bar with the logo 'CIT-HRM' and a search bar. Below the navigation bar, there is a menu with options: Dashboard, Admin, PIM, Leave, Time, My Info, Reports, Biometric Data, Settings, and News. The 'Admin' menu is currently selected. The main content area displays the 'Job Titles' section. It includes a table with two columns: 'Job Title' and 'Job Description'. The table contains three entries: 'Tester' (For testing Application), 'Developer' (To develop web based applications), and 'Manager' (Manage all Java based projects). There are checkboxes next to each entry. To the right of the table, there are two buttons: '+ Add' (yellow) and 'Delete' (red).

Job Title	Job Description
<input type="checkbox"/> Tester	For testing Application
<input type="checkbox"/> Developer	To develop web based applications
<input type="checkbox"/> Manager	Manage all Java based projects

Click on “ADD” button to add new Job Title. Enter Job title, Job description, Job specification, attachment if available, Note and click on save button.

The screenshot shows the 'Add Job Titles' form in the CIT-HRM application. The form has a title bar 'Add Job Titles' and a search bar. Below the title bar, there is a menu with options: Dashboard, Admin, PIM, Leave, Time, My Info, Reports, Biometric Data, Settings, and News. The 'Admin' menu is currently selected. The form contains several input fields: 'Job Title' (required), 'Job Description', 'Job Specification' (with a 'Choose File' button and 'No file chosen' text), and 'Note'. There is a 'Save' button (yellow) and a 'Cancel' button (red) at the bottom. A note at the bottom left indicates '* Required field'.

Leave Module

Apply Leave

Click on Leave → “Apply Leave” to apply leave. At left side, balance leave details will be shown. Select Leave type, From-To Date, Duration, enter Reason and click on “Apply” button to send leave request. <=image=> Note : If Admin applies leave, then it will be auto approved. When manager applies, then it will go for Admin approval. And when Employee applies, then if Manager is assigned to that employee, then request will go to Manager for approval and once, he approves then it will go for Admin approval. If Manager is not assigned, then request directly goes for Admin approval.

My Leave

Click on Leave → “My Leave”, shows list of leave records applied by logged in employee. <=image=>

Entitlements

The Entitlements can be configured here, to Configure the Entitlements, the Leave Type and Leave period is mandatory to be added.

Add Entitlements

Once the employee is created, click on Leave → Entitlements → “Add Entitlement” to assign max allotted leave for an employee in a year. Select Employee, Leave Type, Leave period will be displayed automatically from Leave period, enter Entitlements e.g. number of leave to above leave type. Then click on “Save” button to save the entitlement for that employee for the given period. Entitlement can be assigned to multiple employees by selecting the checkbox of “Add to Multiple Employees”. By selecting check box, shows two dropdown fields of “location” and “Sub-unit”. So for that Location and Sub-unit Entitlements will be assigned.

Without selecting “Add to Multiple Employees” >> <=image=> Selecting “Add to Multiple Employees” >> <=image=>

Employee Entitlements

Click on Leave → Entitlements → “Employee Entitlements” to check the entitlements of employees. Here it will list out the entitlements added to employees.  Click on “ADD” button will be navigated to “Add Entitlements” screen.  Single or multiple entitlements can be deleted by selecting check box and click on “Delete” button.  Employees details can be filtered by Employee Name, Leave Period and Leave Type. 

My Entitlements

Click on Leave → Entitlements → “My Entitlements”, shows current logged in employees entitlement details. Click on “ADD” button will navigate to “Add Entitlements” screen. 

Single or multiple entitlements can be deleted by selecting check box and click on “Delete” button. 

Configuration

Leave Period

Click on Leave → Configuration → “Leave Period” to set the Leave Period for the Organization. Select Month, Date and End date is calculated automatically. Current Leave period will be displayed below. 

Leave Type

Click on Leave → Configuration → “Leave Types” to add Leave Types. Click on “ADD” button, Enter Name & click on save button to save the new leave type to the organization.

  Click the checkbox and then click “Delete” button to delete the leave type.

Holidays

Click Leave → Configuration → “Holidays” to add new Holiday and check list of holidays. Click “ADD” button to add new Holiday to organization. Enter the Holiday Name, date, and click the checkbox. Repeats annually if the holiday is mentioning is constant for all years (e.g.: Dec 25th, Jan 1st... etc.) also select full day / half day the holiday is valid and click save button to add the holiday to organization. Click the checkbox and then click “Delete” button to delete the leave type.

<=image=> <=image=>

Leave list

Click on Leave → "Leave List" to check the employee leave status. Leave applied by the employee will be listed here for Approval process. Leave has two levels of approval. If Employees has assigned Manager, then first Leave request will be sent to manager for approval. If Manager approves then it will be sent for Admin approval. If Manager Rejects or Cancels, then request will be sent back to Employees with Manager's comments. If Employee is not assigned Manager, then Leave request directly sent for Admin Approval. Leave request can be filter by using search section at the left side. <=image=>

Assign Leave

Click on Leave → "Assign Leave", Admin or Manager can apply leave on behalf of Employee. Select Employee Name, Leave Type, From-To Date, Duration, and Enter Reason then click on "Apply" button to send Leave request. If Manager applies Leave request on behalf of Employee, then it will be sent to Admin approval. And If Admin applies Leave request on behalf of Employee, then it will be auto approved. <=images=>

Time Module

Timesheets

The employee time sheets can be configured here, to Configure the time sheet the Project info and customer info is mandatory to be added.

My Timesheets

Click Time→ Timesheets →"My Timesheets" to Create timesheets and submit for approval. By default, "Daily" tab will be set.

<=image=>

Click on "ADD" button to add timesheet for that day. It will open Timesheet create screen.

<=image=>

Select Project Name, Activity Name, Enter Duration, write Comments and if worked on multiple project or multiple tasks then click on "Add Row" to add those details. Then click on "Save" button to save the timesheet. <=image=>

Once Timesheet is saved, by default it will be in "Not Submitted" state. Employees can submit for approval by clicking "Submit" button and it will be sent for approval. For Timesheet, one level of approval is needed. If Employee is assigned with Manager, then request needs to be approved by Manager. If not, then request should be approved by Admin. If Admin creates Timesheet and click on "Submit" button to send for approval, then it will be auto approved.

<=image=>

Timesheet can be deleted if the status is "Not Submitted" by clicking "Delete" Button.

Employee Timesheets

Click Time→ Timesheets →"Employee Timesheets" to view timesheets submitted by the employee. List can display based on selection of "Daily/Weekly/Monthly" at right side. Admin can perform action on it like Approve/Reject/Cancel.

<=image=> Admin Approves Request >>

<=image=>

Attendance

Employees daily attendance data will be configured here.

My Records

Click on Time → Attendance → “My Records”, lists attendance details here. In “My records” data will be added from “Biometric Module” and “Punch IN/OUT” screen will be shown here. If Records are added from “Biometric Data” then it will be listed with Type as “Automatic” and if listed from “Punch IN/OUT” then it will be listed as Type “Manual”.

<=image=>

Data can be filtered from filter section by selecting Date field and click on “Search” button.

Punch IN/OUT

If Punch IN/OUT details are not present in “Biometric Data” then Admin can enable this module for Employees to manually enter the Punch IN/OUT details and will be sent for one level of approval. Admin can have full access so he can see this menu all the time. Click Time → Attendance → “Punch IN/OUT” to enter punch In/Out details manually. Select Date, enter Time and Note and then click on “Punch In” button. Once “Punch In” button is clicked then “Punch Out” Screen will be displayed. <=image=> Click on “Punch In” to save details. <=image=> Enter Punch OUT details and click on “Punch OUT” button. And details are listed in My records screen. <=image=> Click on “Punch Out” button to save details and navigates to My Records page. If Admin creates attendance record, then it will be auto approved. If Manager creates, then it will be sent for Admin approval. If Employee creates, then it will be sent for Manager approval. If Manager is not assigned, then request sent to Admin approval.

Employee Records

Click on Time → Attendance → “Employee Record”, lists Punch IN/OUT records submitted by the Manager or Employees. Admin can perform Approval operation here. If Employee or Manager sent Attendance record for approval, then default status will be “Submitted” in Admin panel. <=image=> Here Admin can perform Approval operation e.g. Approve or Reject. <=image=> Request can be filter or searched by Date.

Project Info

Customers

Click on Time à Project Info à “Customers” to view the existing customer list.
